## YUVRAJ SHINDE

25/04/2004  
PUNE

### HEY,

I am a fourth-year architecture student interested in contemporary, minimalist, and parametric architecture. I enjoy exploring spatial experiences, materials, and modern design approaches through creativity and experimentation. I am eager to learn, contribute, and grow through hands-on architectural experience.

Insta: @alinx\_architects

### CONTACT

Email: shindeyuv04@gmail.com  
Phone: +91 9145444333

### EDUCATION

Bachelor of Architecture  
2022-Present  
Sinhgad college of architecture , Pune

### PRACTICAL EXPOSURE

- Residential project site visits.
- Basic residential planning and design concepts.
- Ongoing construction observation.
- Residential learning exposure

### EXPERIENCE

Worked on 10+ residential design concepts with ongoing site execution involvement and practical construction exposure.

### WORKSHOPS

- Bamboo Handcraft workshop, Avanti Kalagram, Pune
- T-shirt painting workshop
- Carpentry Workshop
- Brick Workshop
- Rice husk Pavillion Workshop

### SOFTWARE SKILLS

- Autodesk Autocad
- Adobe Photoshop
- D5 render
- Microsoft Powerpoint
- Sketchup
- Microsoft Word

### PROFESSIONAL SKILLS

- Architectural photography
- Conceptual Development
- Architectural illustration
- 3D Modeling
- Architectural visualization
- Spatial Planning

### INTERESTS

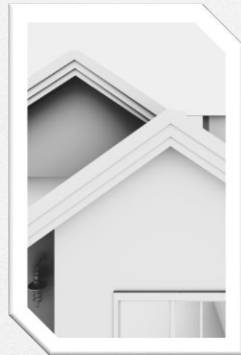

Gaming | Movies | Site visits | Travelling

## FARMHOUSE

Client: Mr. Krishna Balwadkar  
Typology: Residential  
Configuration: 2 BHK  
Location: Kasarsai, Pune  
Climate: Tropical wet and dry climate

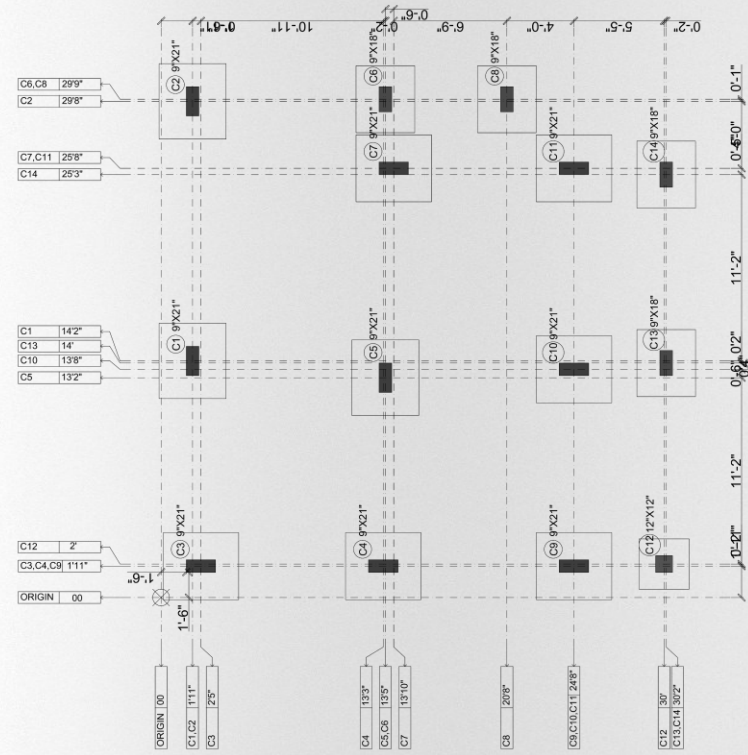

Located in the scenic landscape of Kasarsai, Pune, this 2 BHK farmhouse is designed to serve as a peaceful getaway that seamlessly blends modern architectural trends with the serenity of nature. The design directly responds to the client's requirement for a contemporary, low- maintenance weekend home that maximizes outdoor connectivity.

## 2] KRE-BIC, BHUJ

KUTCH RENEWABLE ENERGY BUSINESS  
AND INNOVATION CENTRE.

Design for AD7, the campus responds to Bhuj's hot-dry climate through sustainable planning strategies such as passive cooling with compact self-shading blocks and wind corridors, solar-covered parking for renewable energy generation, and a fully pedestrian-friendly core that reduces heat island effects and promotes green mobility.
